### World Bridge Places 1<sup>st</sup> again!

The World Bridge project has placed 1<sup>st</sup> again in the NASA Europa Challenge 2016. The data, especially the Earthquake Signal Precursors data, is being used by scientists around the world to advance earthquake science. Through KIBSD's partnership with NASA Ames Research Center, a new partner, Arctic Slope Regional Corporation which performs work for NASA, and the Air Force Missile and Space Division which offered to provide an international-class server to host our data to the world. Our student-designed and built sensors currently produce over 13 million data points per day.
